Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I chose this phone because I have limited income to spend on a cell phone. Adding this fee will only cause me to re-think how important it is to have a cell phone. I initially purchased it for emergency use only, but have used it more than I thought. It helps to have a way for the kids to always be able to get a hold of me. I really can't afford to pay anymore than I already am. Please don't add a fee that could cause me to stop using my phone.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Amy Stringer
